Good afternoon,

Please see the email from Billie Siddoway. We have the 911 Study on the agenda for Sept. 30 Council of Governments. Is the feasibility of 911 consolidation of interest to you both? It certainly is for the Fire District. I believe we have a really robust draft RFP that could provide information for future decisions for all parties involved. Keep in mind, the results or recommendations of the study would be presented by the consultant and there is nothing that would require us to act on any of them to include a consolidation.

I guess I need some direction here and would like to hear your thoughts. As a reminder, the Fire District is willing to pay for the Study.

Mike Maltaverne

Fire Chief

Subject: Re: Dispatch RFP Draft

Mike,

If consolidation is part of the scope of work, the Sheriff's Office and Dispatch are not interested in participating. Perhaps we can shelve the assessment for a year, implement the changes to staffing and procedures that have already been approved, and revisit an assessment at a later date.

Best Regards,

Billie

Billie,

As promised, here is a draft RFP for a Dispatch Study. As stated this morning, I have verbal approval from the Fire Commissioners to proceed with the RFP process, identify costs and ultimately pay for the study, barring any unreasonable amount. I will draw attention to the last area to study, being the feasibility of consolidation with Madison County. I fully understand that this is off the table. However, I feel we would be remiss in our duties if we didn't at least take advantage of this opportunity and learn more about future possibilities. The current leadership between the Fire District and the County won't be here forever. We can agree to not share that portion of the returned product and keep that for internal, future use or reference.

I look forward to working on this and getting this on the street for proposals.

Thank you!

Mike Maltaverne
Fire Chief
